Allowable Subject Matter

1. Claims 2-30 are allowed.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

The prior art taken singly or in combination does not teach or suggest, an image interpolating device among other things, comprising:

a first interpolation/modification processor that extracts a first similar pixel which has the closest luminance value to that of said first objective pixel, from pixels adjacent to said first objective pixel, obtains a third B-signal of said first objective pixel by a first interpolation process, and modifies said second G-signal and said first R-signal of said first objective pixel, based on first information of said first similar pixel;

a second interpolation/modification processor that extracts a second similar pixel which has value to that of said fourth objective pixel, from pixels adjacent the closest luminance to said fourth objective pixel, obtains a third R-signal of said fourth objective pixel by a second interpolation process, and modifies said second G-signal and said first B-signal of said fourth objective pixel , based on second information of said second similar pixel.

The closest prior art, Chen (U.S. Patent No. 6,570,616) teaches a color filter, an image device, a pattern generating, a first G-interpolation processor, a second R/B interpolation processor. However, reference Chen does not teach the above features.

Conclusion

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
